Re: Mountaire Farms of Delaware, Inc.
Order on Consent, Docket No. SDWA-03-2003-0015

Dear Mr. Tirrell:

EPA received your letter of April 19, 2018 with attached well monitoring data. The letter which serves as a Progress Report as and includes the required certification statement as required by paragraphs 51 and 52 respectively of the above referenced Order. These Reports were discussed in the February 12, 2018 meeting between Mountaire and EPA. At that time EPA stated that paragraph 51 of the Order specially requests a summarizing of all actions taken in accordance with the Order. EPA stated that Mountaire's submission of just the monitoring well data is insufficient to satisfy that requirement. As part of the quarterly Report Mountaire must provide a written accounting of all actions associated with, as well as, a certification statement that it continues to maintain the point of use/entry treatment devices and/or the bottled water to the affected residences as identified in Attachment 3 of the Order.

Please submit a revised Report with the proper certification statement and include any relevant information regarding the affected residents' water supply and maintenance.

If you have any questions regarding these comments or the Order, please contact me at 215-814-3296.

Sincerely,

Amy J. Cohen
Environmental Scientist
